WARNING: PLEASE CAREFULLY READ THE PRECAUTIONS BOOKLET INCLUDED WITH THIS PRODUCT BEFORE USING YOUR NINTENDO® HARDWARE SYSTEM, GAME PAK OR ACCESSORY. THIS BOOKLET CONTAINS IMPORTANT SAFETY INFORMATION.

## IMPORTANT SAFETY INFORMATION - READ THE FOLLOWING WARNINGS BEFORE YOU OR YOUR CHILD PLAY VIDEO GAMES

Some people (about 1 in 4000) may have seizures or black outs triggered by light flashes, such as while watching TV or playing video games, even if they have never had a seizure before.

Anyone who has had a seizure, loss of awareness, or other symptom linked to an epileptic condition should consult a doctor before playing a video game.

Parents should watch when their children play video games. Stop playing and consult a doctor if you or your child have any of the following symptoms:

Convulsions
Altered vision

Eye or muscle twitching Involuntary movements Loss of awareness Disorientation

To reduce the likelihood of a seizure when playing video games:

- 1. Sit or stand as far from the screen as possible.
- 2. Play video games on the smallest available television screen.
- 3. Do not play if you are tired or need sleep.
- 4. Play in a well-lit room.
- 5. Take a 10 to 15 minute break every hour.

## **WARNING - Repetitive Motion Injuries**

Playing video games can make your muscles, joints or skin hurt after a few hours. Follow these instructions to avoid problems such as Tendonitis, Carpal Tunnel Syndrome or skin irritation:

- Take a 10 to 15 minute break every hour, even if you don't think you need it.
- If your hands, wrists or arms become tired or sore while playing, stop and rest them for several hours before playing again.
- If you continue to have sore hands, wrists or arms during or after play, stop playing and see a doctor.

## **WARNING - Battery Leakage**

Leakage of battery acid can cause personal injury as well as damage to your Game Boy. If battery leakage occurs, thoroughly wash the affected skin and clothes. Keep battery acid away from your eyes and mouth. Leaking batteries may make popping sounds.

To avoid battery leakage:

- · Do not mix used and new batteries (replace all batteries at the same time).
- · Do not mix alkaline and carbon zinc batteries.
- Do not mix different brands of batteries.
- · Do not use nickel cadmium batteries.
- Do not leave used batteries in the Game Boy. When the batteries are losing their charge, the power light may become dim, the game sounds may become weak, or the display screen may be blank. When this happens, promptly replace all used batteries with new batteries.
- Do not leave batteries in the Game Boy or accessory for long periods of non-use.
- Do not leave the power switch on after the batteries have lost their charge. When you finish using the Game Boy, always slide the power switch OFF.
- Do not recharge the batteries.
- Do not put the batteries in backwards. Make sure that the positive (+) and negative (-) ends are facing in the
  correct directions. Insert the negative end first. When removing batteries, remove the positive end first.
- Do not dispose of batteries in a fire.

#### BANJO

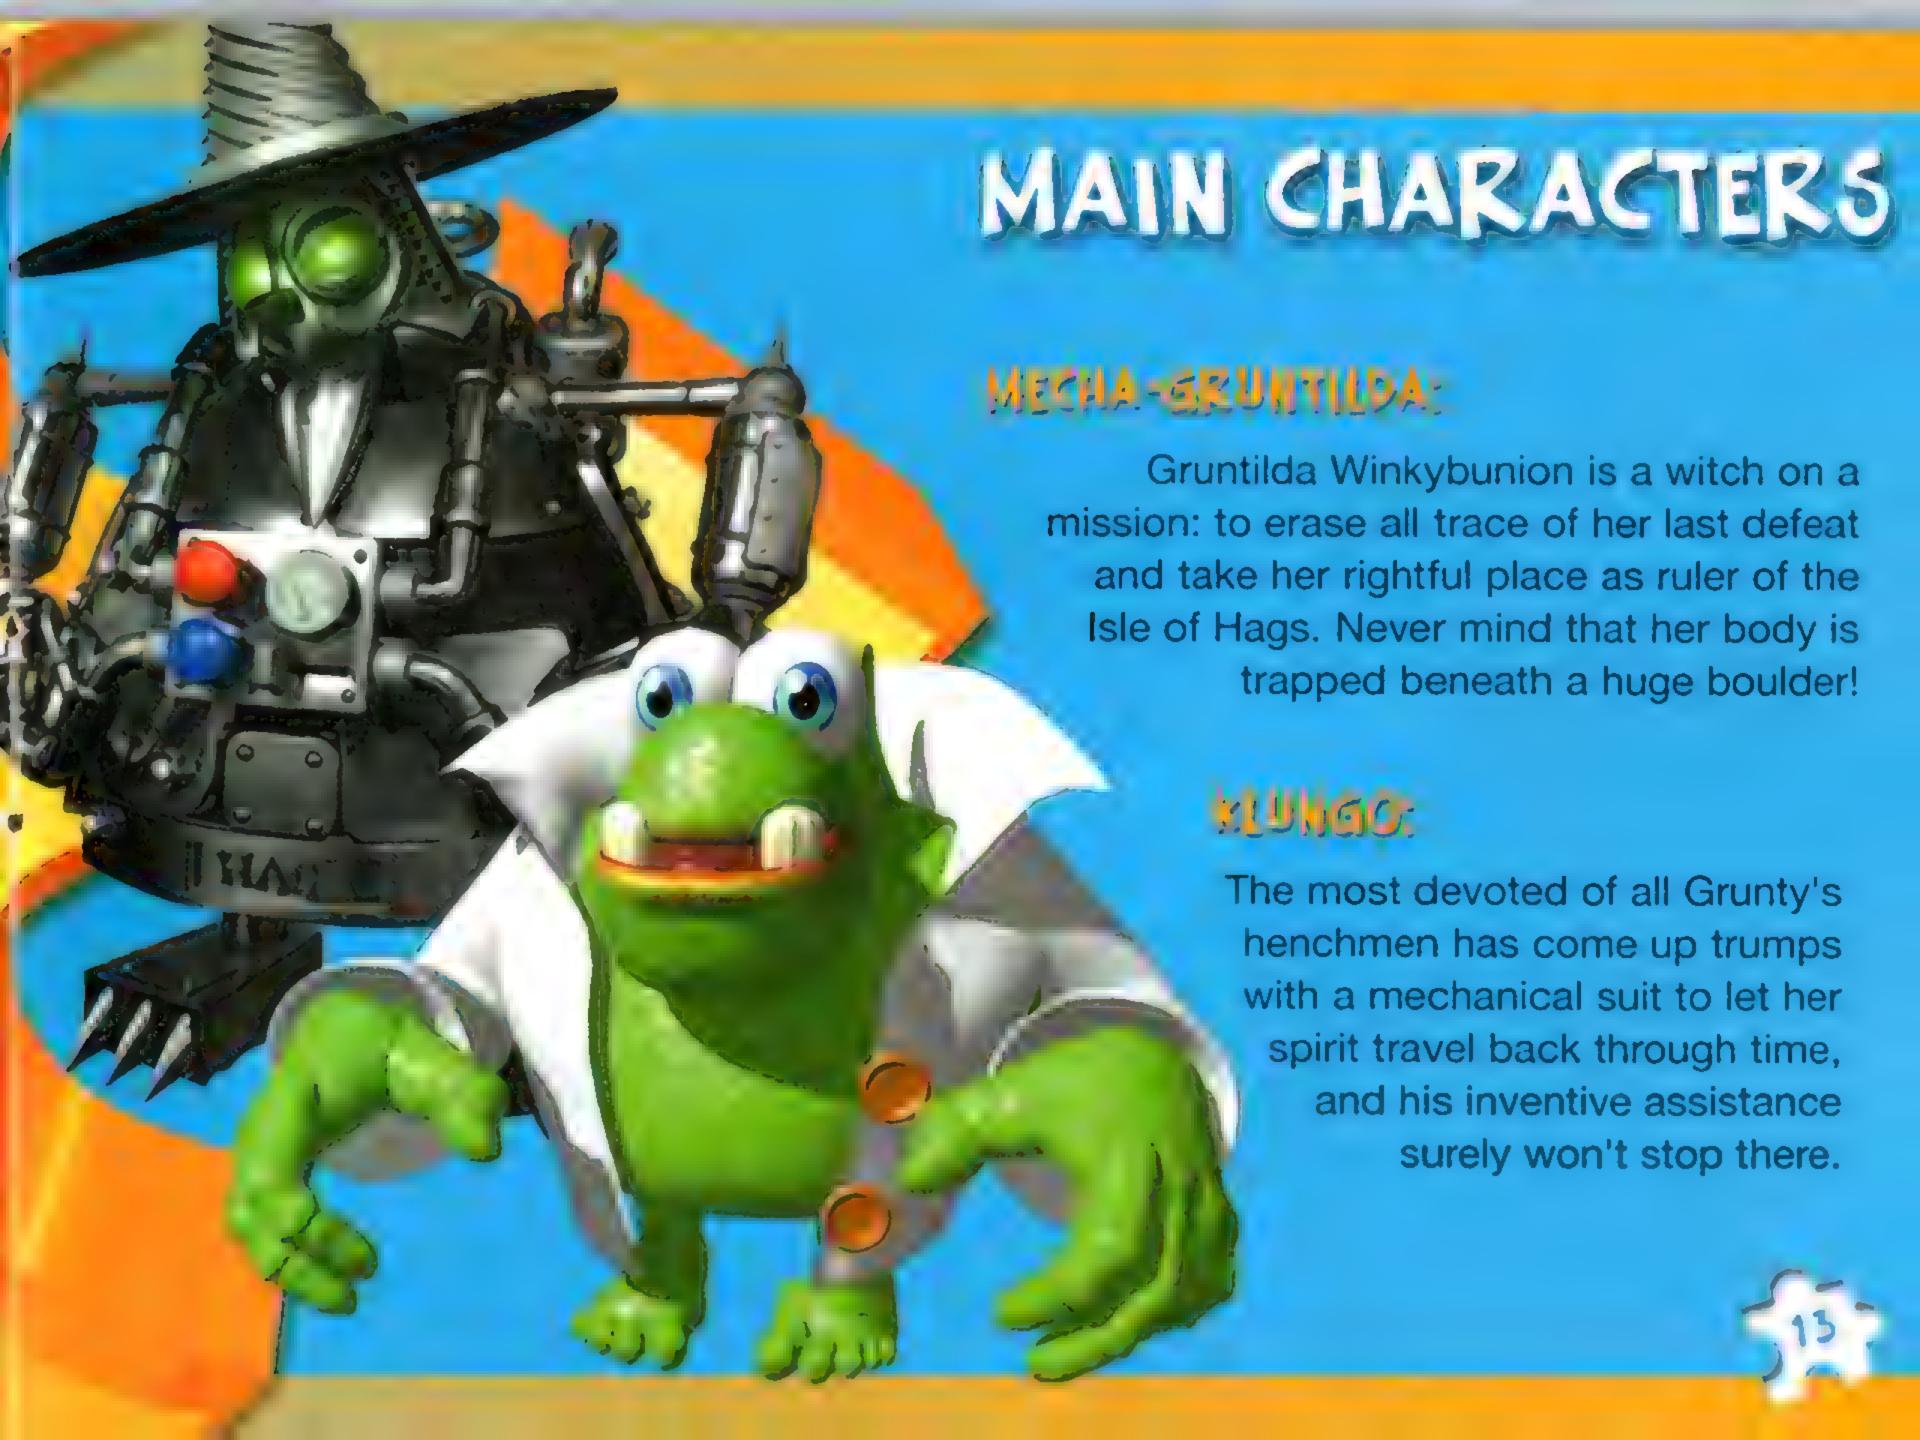

With his best friend Kazooie captured and arch-enemy Gruntilda planning to write him out of history, Banjo is landed with the task of saving the Isle of Hags from an uncertain future.

### KAZOOLE

All Banjo's sharp-tongued pal wants to do is get back together with her partner - then our favorite Breegull would ensure that the mad hag didn't have the last laugh!

## (0) BOZZEYE:

When it comes to new attacks and ways to explore, this mole has all the knowhow. But Bozzeye's lessons don't come cheap, so get collecting Notes!

### IN MUMBO JUMBO:

Mumbo's special transformation spells will help Banjo to no end in locating secret areas and extra Jiggies, Notes, and Jinjos. (Read pages 16-17 for more on Transformations.)

### OD JIHJO OKACLE:

She may not get around much, but this gravelly-voiced pillar of the community has a wealth of gossip and secrets to share with Banjo just as soon as he rounds up some Jinjos.

## ( JIGGYWIGGY:

Left unable to break the magic seals on the world entrances by Grunty's spells, Master Jiggywiggy needs Banjo's help in returning the scattered Golden Jiggies to the Jiggy Temple.

With the Mumbo totems that Banjo earns in his conflicts with Klungo and Mecha-Grunty, the witch-doctor-in-training is able to transform the bear into various other creatures and objects, inferring new powers each time. But remember that Mumbo's still learning, and his magic may weaken in some corners of the Isle of Hags.

#### CANDLE:

This bright spark in Mumbo's repertoire will shed some light on the situation for Banjo. The little hothead won't fade when it comes to dealing with scary baddies, but would prefer to be kept out of the damp.

#### MOUSE:

This pint-sized transformation may not be able to swim, but get him into a tight spot and you're guaranteed to find something for him to sink his teeth into.

# TRANSFORMATIONS

### OCTOPUSE

When an expert is needed in poisonous or deepwater exploration, the octopus is the only option. With unlimited water bombs and a swimming high jump, the transformation caused by this spell is sure to come in handy.

## TARRE

A sturdier piece of Mumbo magic would be hard to find. The tank is a real heavy hitter with a payload that can blast its way into uncharted territory.

## COLLECTIBLES

#### JIGGIES.

These magical objects are the missing pieces that will open new levels for Banjo to explore, and are vital in completing the quest.

#### MUSICAL WOTTES

As Bozzeye says: "There's nothin' I like to see more than a load o' sparklin' notes!" So if Banjo wants to learn more moves, he'd better collect as many as he can.

## July 100

Every Jinjo carries a message, and after rescuing one Banjo can ask the Jinjo Oracle to pass on its secret. When the five Jinjos trapped on each world are found, Banjo is rewarded with a Jiggy.

#### BATTER Y BEEFE

Battery eggs pack an electric punch that will give Grunty's minions a real shock.

### 310 3555

These are the first eggs that Kazooie is able to fire. They may be the weakest type, but they're easy to find and she can carry more of them than other types.

#### 192 3555

Perfect for knocking hotheaded baddies out cold and temporarily freezing all others to the spot.

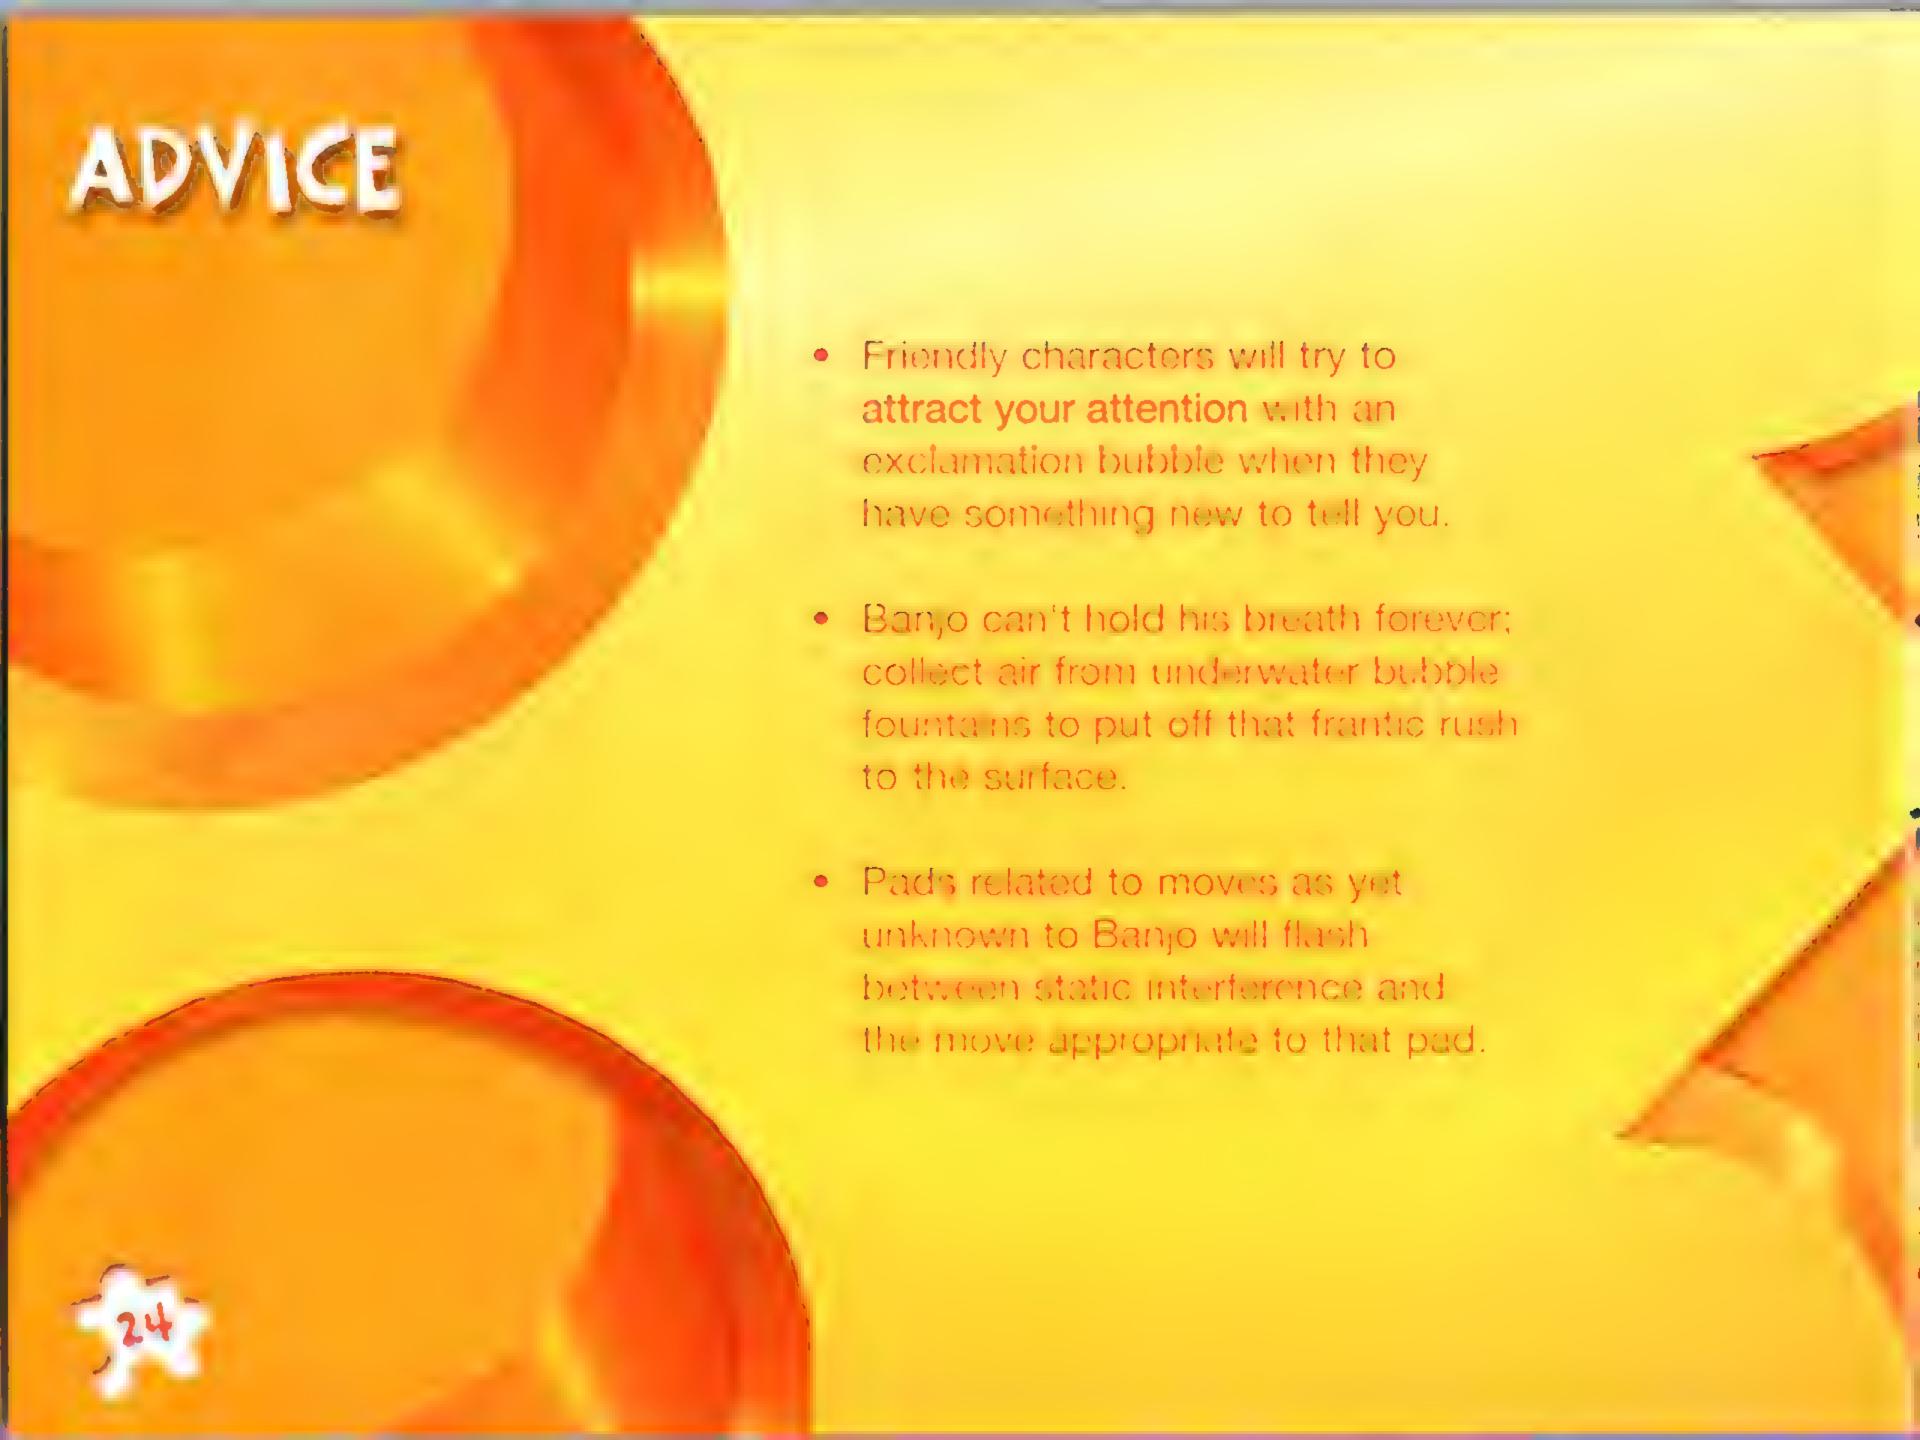

These flaming missiles are hot enough to vaporize ghosts and burn most enemies to a crisp.
